

Parking Stop  
**Park-It**<sup>®</sup>

# Park-It®

The Park-It® parking curb is used to effectively guide cars when pulling into a parking space. It is profiled at 10 cm high, safe-guarding potential damage to today's low, front end car designs. Unlike concrete or plastic, which necessitate frequent replacements, recycled rubber car stops are safer and more durable.

In-molded highly reflective tape (available in yellow or white) ensures visibility and pedestrian safety. The Park-It® parking curb is constructed of 100% recycled rubber.

The Park-It® comes with pre-molded holes and can be shipped with anchoring spikes or lag bolts for installation. They are lightweight (15,5 kg) and flexible; conforming to the contour of uneven surfaces.

Park-It® parking curbs are available in 90 cm, 120 cm, 180 cm lengths.

## Recommended applicatons:

- Indoor or outdoor parking where cars need to be guided into parking spaces to protect property or the vehicles themselves

## Specifcatons:

- Made of 100% recycled rubber
- Lightweight and easily installed by one person
- Can be installed on any compacted surface
- Resistant to UV, moisture, oil and extreme temperature differences
- Temporary or permanent installaton - relocatable when resurfacing / maintaining road surfaces; products can be stored and re-used
- No maintenance, easy to install

## Dimensions:

- 120 cm x 30,5 cm x 5,6 cm
- 120 cm x 30,5 cm x 7,6 cm
- 180 cm x 30,5 cm x 5,6 cm
- 180 cm x 30,5 cm x 7,7 cm

## Colours:

- Black/yellow, Black/white
- Red or blue rubber with white tape available on request

## Accessories:

- For asphalt: Steel spikes (356 x 12 mm)
- For asphalt or concrete: Screws and anchors

## Product Futures

Recycled rubber is a great resource for manufacturing quality products

- Tires are 100% recyclable. There are many ways to use recycled rubber; it is often found in "rubber mulch," a product used on playground surfaces, athletic facilities, and gardens.
- Additionally, recycled rubber can be used for various automotive and infrastructural sealants, and, of course, our premium rubber parking stops.
- Utilizing recycled rubber is just one of the many ways we seek to protect the environment.
- While the issue of scrap tires littering landfills remains a large problem that must be addressed, we are proud to play a small part in the solution.
- We are also proud to provide high-quality parking stops to the parking and facility maintenance industries.

## Park-It® (black/yellow)

Art. nr.	Dimensions	Weight (kg)
GNRS1310YB	90 cm x 15 cm x 10 cm	7,7
GNRS1410YB	120 cm x 15 cm x 10 cm	10,5
GNRS1610YB	180 cm x 15 cm x 10 cm	15,5

## Park-It® (black/white)

Art. nr.	Dimensions	Weight (kg)
GNRS1320WB	90 cm x 15 cm x 10 cm	7,7
GNRS1420WB	120 cm x 15 cm x 10 cm	10,5
GNRS1620WB	180 cm x 15 cm x 10 cm	15,5

### APPLICATIONS

- Traffic Control
- Parking Lots
- Facility Protection
- Street Maintenance
- Event Venues
- Residential Areas

## TESTS

Density	0.6 oz/cu in (ASTM C642)
Durometer hardness	65A ± 7 (ASTM D2240)
Tensile Strength	200 psi (ASTM D412)
Compression deformation	10% at 70 psi, 68 °F (ASTM D575)
Brittleness at low temp	-40 °F (ASTMD746) D3884-01
Freeze+thaw when exposed to deicing chemicals	no loss after 50 cycles the Gel/thaw (ASTM C672)
Coefficient of thermal expansion	8x10 <sup>-5</sup> in/in/°F (ASTM C531)
Weathering 70 hours at 158 F °(ASTM D573)	- hardness retained 100% (± 5%) - compressive strength 100% (± 5%) - tensile strength 100% (± 5%) - elongation retained 100% (± 5%)
Installation surface	Any compacted surface

**THE MONSTER HOME PARK-IT®** is the safest, smartest parking device to protect your car. With molded reflective tape, available with yellow or white, these parking stops are sure to be seen.

**Material:** Premium Recycled Rubber

- A guidance device that helps the homeowner park with confidence in limited space.
- Protects valuables and prevents damage in and around the garage.
- Highly visible at night and comes with painted yellow stripes and reflective glass beading.
- High quality, durable construction warranted for 5 years.

MODEL: 13190H

## SPECIFICATIONS

Model	Description	Length	Width	Height	Weight	Spikes Needed
13190H	Home Park-It® Car Stop	22 in. (55.8 cm)	6 in. (15.24 cm)	4 in. (10.16 cm)	9 lbs. (4 kg)	2
